Integrated Heating Solution

The New Dual Top ST 6 Diesel with upgraded stainless steel boiler provides heating and hot water. This unique system draws diesel fuel from the vehicles fuel supply tank eliminating the need for an additional fuel source. Space saving & compact this system has been engineered to allow for interior or exterior installation.

Dual Top ST 6 Diesel integrated 20,500 Btu/hr (6 kW) heater ensures heating comfort through out the vehicle. This sophisticated technology allows for rapid heating while using a minimum of energy.

The frost protection mode enables the user to park the vehicle for a short time without having to worry about frost and frost damage to the heater.

Control panels:

Standard control panel

Digital control panel

More functions, simple and accessible:

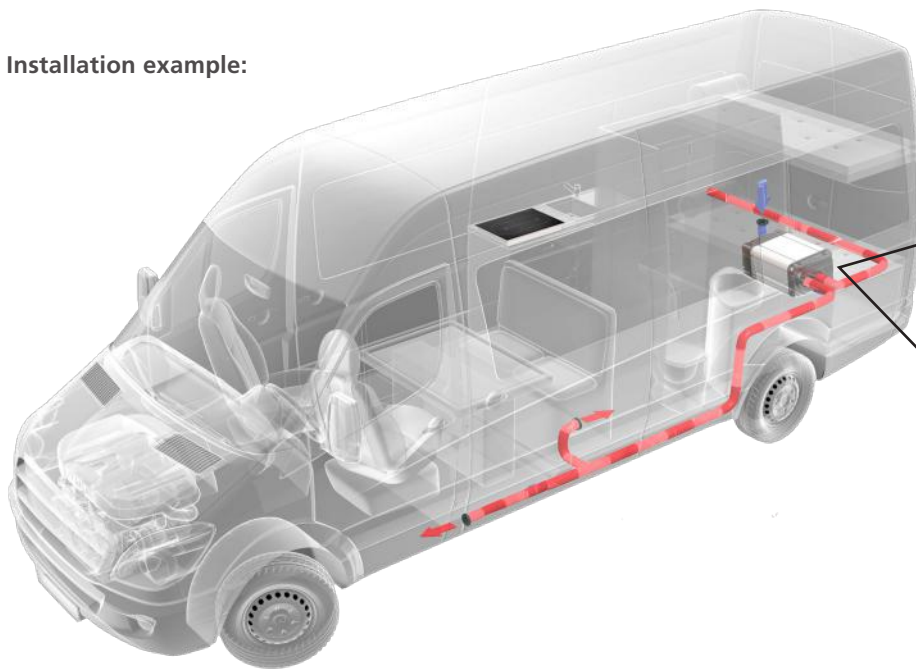

The easy-to-operate standard control panel allows you to select air or water heating, or a combination of both. The user can also select a frost protection mode and an auto drain mode.

The digital control panel adds a modern look providing easy navigation and comfort at any time.

Technical specifications:

	Dual Top ST 6 Diesel
Part Number	1328300
Heating power	5,120 – 20,470 Btu/hr (1.5 – 6.0 kW)
Fuel	Diesel
Fuel consumption	.05 – 0.17 gal/hr (0.19 – 0.66 l/hr)
Rated voltage	12 V
Operating voltage range	9.0 – 15.0 V
Rated power consumption	15.0 – 65.0 W
Boiler capacity	2.58 gal (9.8 l)
Air flow	135.37 cfm (230 m ³ /h)
Dimensions (L x W x H)	21 x 13.9 x 10 in (530 x 352 x 256 mm)
Weight	50.7 lbs (23 kg)

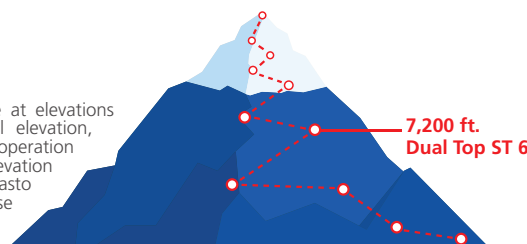

Installation example:

The Webasto Dual Top ST 6 was especially developed to be installed inside or outside the vehicle.

All Webasto Fuel Operated Heaters are designed for use at elevations not to exceed the maximum recommended operational elevation, which varies by product and model. Please consult your operation manual to determine the maximum operational elevation for your specific product and model. Use of any Webasto Fuel Operated Heater at elevations higher than those recommended may lead to reduced performance and may require increased service and maintenance.
